

AHAMED TAMZIL S

Full Stack Developer — AI-Integrated Applications — Node.js • React • MongoDB • MySQL

ahamedtamzil95@gmail.com — +91 8870991399 — GitHub — LinkedIn

CAREER OBJECTIVE

Computer Science Engineering graduate with full-stack development experience across Java, Node.js, React.js and MongoDB/MySQL, plus hands-on exposure to AI/ML integration through building an AI-powered resume parsing and job recommendation platform.

Comfortable working across the stack—from REST API and backend architecture design to frontend delivery—and looking to apply these skills to building, deploying and maintaining AI agents, agentic workflows and LLM-powered applications.

SKILLS

Backend & APIs: Node.js, Express.js, REST API Design, JWT Authentication, MVC Architecture, CRUD Operations

AI / ML Exposure: TensorFlow.js Model Integration, AI Resume Parsing, ML-based Recommendation Systems

Frontend: React.js, HTML, CSS, JavaScript

Databases: MongoDB, MySQL

Programming Languages: Java (Core, OOP, Exception Handling), JavaScript, C

Tools & Practices: Git, GitHub, Postman, VS Code, CI/CD Fundamentals (GUVI DevOps Certification)

EXPERIENCE

MERN Stack Trainee

Aug 2024 – Feb 2025

Tech Jose

- Developed and deployed RESTful APIs using Node.js, Express.js and MongoDB, enabling scalable backend integrations suitable for AI-powered applications.
- Built responsive React.js interfaces and delivered complete frontend-to-backend features.
- Designed modular MVC architecture using controllers, models and routes.
- Integrated Nodemailer for automated email workflows and event-driven processing.
- Collaborated in improving application scalability and performance.

Web Development Intern

Feb 2025 – May 2025

S N Technology & Consulting

- Developed e-commerce websites using WordPress and WooCommerce.
- Implemented SEO strategies that increased organic traffic by 25%.
- Managed Google Business Profiles and optimized digital advertising campaigns.

PROJECTS

AI-Powered Resume Parsing & Job Recommendation Platform

React.js, Node.js, Express.js, TensorFlow.js, MySQL

- Built a full-stack platform integrating machine learning into the application workflow for resume parsing and job recommendations.
- Implemented AI-based resume parsing to automatically extract and structure candidate skills.
- Integrated TensorFlow.js inference for personalized job recommendation.
- Designed REST APIs connecting frontend, backend and ML components.

Optimized Data Storage Using Blockchain

Java, SHA-256

- Designed a sharding-based blockchain framework improving storage efficiency by 20%.
- Implemented secure distributed consensus using SHA-256 hashing.
- Published research at an International Engineering Conference (2024).

EDUCATION

B.E. Computer Science and Engineering Nandha College of Engineering CGPA: 8.3	2021 – 2025
HSC Grace Matriculation Higher Secondary School 94.4%	2020 – 2021
SSLC Grace Matriculation Higher Secondary School 94.6%	2018 – 2019

CERTIFICATIONS

- DevOps Certification (GUVI) – CI/CD and Automation Fundamentals
- Intermediate SQL Queries – DataCamp
